Mountain View-Los Altos Union High School District
Mountain View, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mountain View-Los Altos Union High School District, as of and for the year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise Mountain View-Los Altos Union High School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Mountain View-Los Altos Union High School District, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

Emphasis of Matter

As discussed in Note 1 to the financial statements, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. This resulted in a restatement of the beginning governmental activities net position and the beginning aggregate remaining fund information fund balance totaling \$1,294,984. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 4 to 11, the General Fund Budgetary Comparison Schedule, Schedule of Changes in the District's Total Other Postemployment Benefits (OPEB) Liability, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 54 to 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Mountain View-Los Altos Union High School District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and the other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the Schedule of Financial Trends and Analysis, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and other supplementary information as listed in the table of contents, except for the Schedule of Financial Trends and Analysis, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Financial Trends and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 28, 2022 on our consideration of Mountain View-Los Altos Union High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Mountain View-Los Altos Union High School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mountain View-Los Altos Union High School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

This management's discussion and analysis of Mountain View-Los Altos Union High School District's (MVLA) financial performance provides an overall review of the District's financial activities for the fiscal year that ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights (in thousands) for 2020-2021 are as follows:

- Total net position is \$32,473 which represents an increase of \$19,925 from June 30, 2020 to June 30, 2021. This total change incorporates the effect of implementing Governmental Accounting Standards Board (GASB) Standard No. 84, which now reports the Student Activity Fund as a special revenue fund of the District, instead of just as Fiduciary Activities.
- Property taxes accounted for \$116,930 (General Fund - \$91,220 and Debt Service Fund - \$25,711) which is 78% of all revenues. Program specific revenues in the form of operating grants, state aid, contributions, and charges for services accounted for \$24,383 or 16% of the total revenues of \$150,768.
- The District had \$132,138 in total expenses of which direct instructional services and pupil services were 83% of that total expenditure.
- Total capital assets in the governmental activities funds increased by \$53,266 or 39% from June 30, 2020 to June 30, 2021.

Using the Audited Financial Statements

These audited financial statements consist of basic financial statements, notes to the basic financial statements, supplementary information, and required supplementary information. These statements are organized so the reader can understand Mountain View-Los Altos Union High School District as a financial whole, an entire operating entity. The statements provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities comprise the District-wide financial statements and provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term, as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of Mountain View-Los Altos Union High District, the General Fund is by far the most significant fund.

The basic financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

Overview of the Financial Statements

The audited financial statements are a product of three separate parts: the basic financial statements, supplementary information, and this section, Management's Discussion and Analysis. The three sections together provide a comprehensive financial overview of the District. The basic financials are comprised of two kinds of statements that present financial information from different perspectives, District-wide and funds.

- District-wide financial statements, which comprise the first two statements, provide both short-term and long-term information about the District's overall financial position.
- Individual parts of the District, which are reported as fund financial statements, focus on reporting the District's operations in more detail. These fund financial statements comprise the remaining statements.
- Notes to the financials, which are included in the financial statements, provide more detailed data and explain some of the information in the statements. The required supplementary information section provides further explanations and provides additional support for the financial statements.

District-wide Financial Statements: Statement of Net Position and Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during the fiscal year 2020-2021?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting practices used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the District's property tax base, current property tax laws in California restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities. The District does not have any business-type activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The Fund Financial Statements provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. These fund financial statements focus on each of the District's most significant funds. The District's major governmental funds are the General Fund, Building Fund, and Bond Interest and Redemption Fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Property taxes made up 78% of revenues for governmental activities for the Mountain View-Los Altos Union High School District for fiscal year 2020-2021.

Direct Instruction Costs comprise 75% of District expenses. Direct Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil.

Pupil Services and Instruction-related Services include the activities involved with assisting staff with the content and process of teaching pupils.

General Administration includes the costs for the Board of Trustees, administration, fiscal and business services, and other expenses associated with administrative and financial supervision of the District.

Plant Services includes the operation and maintenance of plant activities which involve keeping the school grounds, buildings, and equipment in an effective working condition.

Ancillary Services includes the operation of non-instructional services such as food service operations as well as costs related to interest on long-term debt and other financing costs.

The District's Funds

The District's governmental funds report a combined fund balance of \$180,375 which is an increase of \$59,844 from last year's total of \$120,531. Table 3 provides an analysis of the District's fund balances and the total change in fund balances from the prior year.

TOTAL	<u><u>\$ 180,375</u></u>	<u><u>\$ 120,531</u></u>	<u><u>\$ 59,844</u></u>

In 2020-2021, the General Fund balance increased by \$2,697. This increase is largely attributed to our one-time State and Federal Covid relief funds.

The Building Fund balance increased as a result of issuing another series of bonds, partially offset by expenditures incurred for the District's Measure E bond construction projects.

The Bond Interest and Redemption Fund balance increased due to property taxes assessed in connection with the recent bond series issuances of the District's Measure E Bonds.

General Fund Budgeting Highlights

The District's budget is prepared according to California law and is based on the modified accrual basis of accounting. During the course of the 2020-2021 fiscal year, the District revised its General Fund budget twice: once in December based on October 31, 2020, data, and a second time in March based on January 31, 2021 data.

The District settled with both bargaining unit associations for fiscal year 2020-2021. The District negotiated a 4.25% on schedule salary increase, plus a 2.0% one-time, off-schedule salary payment. Secured property taxes grew and overall tax revenues experienced 7.68% growth excluding RDA Revenue.

Finally, it should be noted that the District maintains a 3% reserve for economic uncertainties, and maintains all facilities in excellent condition.

Capital Assets

At the end of the fiscal year 2020-2021, the District had \$188,994 invested in land, buildings, furniture and equipment, and vehicles.

Table 4 shows June 2021 balances compared to June 2020.

Long-Term Debt

The notes to Basic Financial Statements, number 5, shows the outstanding indebtedness of the District. Note number 5 also highlights the additions and deletions that have transpired during the year.

Factors Bearing on the District's Future

As a Basic Aid District, property tax revenue and enrollment growth have the greatest impact on the financial health of the District. Secured property tax growth is forecasted for year 2021-2022 to be 5%, which reflects the extremely positive residential and commercial asset valuations that are within the District's boundaries as well as Santa Clara County-wide. The District is forecasting 5% growth in 2022-2023 and 4% in 2023-2024. Unsecured property taxes are conservatively forecasted at zero percent growth. The Local Control Funding Formula (LCFF) is the funding model for education in California. The LCFF was incorporated into the state budget but does not add or reduce revenue the District currently receives from the state in the form of the Minimum State Aid (MSA). The MVLA Education Foundation continues to support the District with their pledge of \$2.068 million. The District received \$2.872 million in revenue in the current year and is guaranteed a minimum of \$1.84 million annually related to the District's Shoreline Education Enhancement Reserve JPA with the city of Mountain View.

Measure "E"

In June of 2018, MVLA passed a new \$295 million bond measure (Measure "E"). The first \$100 million of bonds were issued in August of 2018. Another \$100 million of bonds were issued in July of 2020. The District is actively working on the much-needed expansion of all district sites in order to provide the needed classroom space to house the projected enrollment growth.

Contacting the District's Financial Management

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Mountain View-Los Altos Union High School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's California School Accounting Manual. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The following is a summary of the more significant policies:

Reporting Entity: The Board of Trustees is the level of government which has governance responsibilities over all activities related to public school education in the Mountain View-Los Altos Union High School District. The Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

The District and Mountain View-Los Altos Union High School District Financing Corporation (the "Corporation") have a financial and operational relationship which meet the reporting entity definition criteria of Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, for inclusion of the Corporation as a blended component unit of the District. Therefore, the financial activities of the Corporation have been included in the financial statements of the District.

The following are those aspects of the relationship between the District and the Corporation which satisfy Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, as amended by criteria:

A - Manifestations of Oversight

1. The Corporation's Board of Directors were appointed by the District's Board of Trustees.
2. The Corporation has no employees. The District's Superintendent and Associate Superintendent function as agents of the Corporation. Neither individual received additional compensation for work performed in this capacity.
3. The District exercises significant influence over operations of the Corporation as it is anticipated that the District will be the sole lessee of all facilities owned by the Corporation.

B - Accounting for Fiscal Matters

1. All major financing arrangements, contracts, and other transactions of the Corporation must have the consent of the District.
2. Any deficits incurred by the Corporation will be reflected in the lease payments of the District. Any surpluses of the Corporation revert to the District at the end of the lease period.
3. It is anticipated that the District's lease payments will be the sole revenue source of the Corporation.
4. The District has assumed a "moral obligation," and potentially a legal obligation, for any debt incurred by the Corporation.

(Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C - Scope of Public Service and Financial Presentation

1. The Corporation was created for the sole purpose of financially assisting the District.
2. The Corporation is a nonprofit, public benefit corporation incorporated under the laws of the State of California and recorded by the Secretary of State. The Corporation was formed to provide financing assistance to the District for construction and acquisition of major capital facilities. Upon completion the District intends to occupy all Corporation facilities. When the Corporation's Certificates of Participation have been paid with state reimbursements and the District's developer fees, title of all Corporation property will pass to the District for no additional consideration.
3. The Corporation's financial activity is included in the basic financial statements in the Adult Education and Capital Facilities Funds. Certificates of Participation issued by the Corporation are included in the government-wide financial statements.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position and the Statement of Change in Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program revenues: Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term liabilities is an indirect expense and is reported separately on the Statement of Activities.

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

MOUNTAIN VIEW-LOS ALTOS UNION HIGH SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A - Major Funds

The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund. For financial reporting purposes, the current year activity and year-end balances of the Special Reserve for Other than Capital Outlay Projects and Special Reserve for Postemployment Benefits Funds are included in the General Fund.

The Building Fund is a capital projects fund used to account for the accumulation and expenditure of resources used for the acquisition or construction of capital facilities by the District.

The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

B - Other Funds

The Special Revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. This classification includes the Student Activity, Adult Education and Cafeteria Funds.

The Capital Projects funds are used to account for resources used for the acquisition or construction of capital facilities by the District. This classification includes the Capital Facilities and Special Reserve for Capital Outlay Funds.

The Self-Insurance Fund is an internal service fund used to account for services rendered on a cost-reimbursement basis within the District. The Self-Insurance Fund is used to provide benefits to District employees.

The Trust Fund is a trust fund for to account for assets held by the District as trustee. The District operates one Trust Fund, the Scholarship Fund, which is to provide financial assistance to students of the District.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Accrual: Governmental activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

MOUNTAIN VIEW-LOS ALTOS UNION HIGH SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgets and Budgetary Accounting: By state law, the Board of Education must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Trustees complied with these requirements.

Operating Revenues: Operating revenues are those revenues that are generated directly from the primary activity of the District's internal service fund, the Self-Insurance Fund. For the District, this includes Insurance Premiums recorded on a cost-reimbursement basis from the District. All revenues not meeting this definition within the internal service fund are reported as nonoperating revenues.

Receivables: Receivables are made up primarily of amounts due from the State of California and categorical programs. The District has determined that no allowance for doubtful accounts was necessary as of June 30, 2021.

Stores Inventory: Inventory in the Cafeteria Fund consists mainly of consumable supplies held for future use and are valued at average cost. Inventories are recorded as an expenditure at the time individual inventory items are withdrawn for use in operations or meal production.

Capital Assets: Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 4 - 30 years depending on asset types.

Deferred Outflows of Resources: In addition to assets, the Statement of Net Position includes a section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods, and as such will not be recognized as an outflow of resources (expense/expenditure) until then. The District has recognized a deferred loss on refunding, which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Additionally, the District has recognized deferred outflows of resources related to the recognition of the net pension liability and total OPEB liability.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized deferred inflows of resources related to the recognition of the net pension liability and total OPEB liability.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate as of June 30, 2021:

Net pension liability	\$ 75,074,000	\$ 27,919,000	\$ 102,993,000
Pension expense	\$ 17,047,529	\$ 5,027,860	\$ 22,075,389

Compensated Absences: Compensated absences benefits in the amount of \$487,895 are recorded as a liability as of June 30, 2021. The liability is for the earned but unused benefits.

Accumulated Sick Leave: Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for certain STRP and PERF B employees, when the employee retires.

Encumbrances: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

Unearned Revenue: Revenue from federal, state, and local special projects and programs is recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of March 1. Taxes are due in two installments on or before December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Santa Clara bills and collects taxes for the District. Tax revenues are recognized by the District when received.

NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position: Net position is displayed in three components:

- 1 Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2 Restricted Net Position - Restrictions of the ending net position indicate the portions of net position not appropriate for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position available for the retirement of debt. It is the District's policy to use restricted net position first when allowable expenditures are incurred.
- 3 Unrestricted Net Position - All other net position that do not meet the definitions of "restricted" or "net investment in capital assets".

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - Nonspendable Fund Balance: The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, prepaid expenditures and stores inventory.

B - Restricted Fund Balance: The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide and fiduciary trust fund statements.

C - Committed Fund Balance: The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Trustees. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Board of Trustees is required to remove any commitment from any fund balance. At June 30, 2021, the District had no committed fund balances.

D - Assigned Fund Balance: The assigned fund balance classification reflects amounts that the District's Board of Trustees has approved to be used for specific purposes, based on the District's intent related to those specific purposes. While the Board of Trustees has empowered members of management to suggest individual amounts to be assigned, as of June 30, 2021 no formal designation of assignment authority has occurred and the Board of Trustees retains ultimate authority for assigning fund balance.

E - Unassigned Fund Balance: In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

MOUNTAIN VIEW-LOS ALTOS UNION HIGH SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Trustees. At June 30, 2021, the District has not established a minimum fund balance policy nor has it established a stabilization arrangement.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

Eliminations and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

New Accounting Pronouncements: In January 2017, the GASB issued GASB Statement No. 84, *Fiduciary Activities*. The principal objective of this Statement is to enhance the consistency and comparability of fiduciary activity reporting by state and local governments. The provisions in GASB Statement No. 84 are effective for reporting periods beginning after December 15, 2019. Based on the implementation of GASB Statement No. 84, the District restated its beginning net position of governmental activities as well as the aggregate remaining fund information beginning fund balance for a total of \$1,294,984, to reflect the incorporation of the student activity as a governmental fund.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2021 consisted of the following:

	<u>Governmental Activities</u>	<u>Fiduciary Activities</u>
Pooled Funds:		
Cash in County Treasury	\$ 186,569,930	\$ -
Cash awaiting deposit	3,196	-
Deposits:		
Cash on hand and in banks	1,441,185	16,733
Revolving cash fund	14,200	-
Cash with Fiscal Agent	48,525	-
	\$ 188,077,036	\$ 16,733

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing Santa Clara County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Deposits - Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. As of June 30, 2021, the carrying amount of the District's accounts was \$1,472,118 and the bank balances totaled \$1,874,399. Bank balances were insured up to \$250,000, and \$1,607,666 remained uninsured, but was collateralized.

Cash with Fiscal Agent: Cash with Fiscal Agent in the Self-Insurance Fund represents cash balances held by various financial institutions for the payment of retentions and pre-funding of dental claims. The cash balances are fully collateralized at June 30, 2021.

Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2021, the District had no significant interest rate risk related to cash and investments held.

Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2021, the District had no concentration of credit risk.

NOTE 6 - OTHER POSTEMPLOYMENT BENEFITS

General Information about the Other Postemployment Benefits Plan

Plan Description: In addition to the pension benefits described in Notes 8 and 9, the District provides healthcare benefits to eligible employees through the Retiree Employee's Healthcare Plan (REHP). REHP is a single employer defined benefit postemployment health care plan which is administered by the District and allows employees who retire after having achieved retirement eligibility requirements to continue receiving healthcare insurance coverage. The Board of Trustees has the authority to establish or amend the benefit terms offered by the REHP, and also retains the authority to establish the requirements for paying for the REHP's benefits as they come due. As of June 30, 2021 the District has not accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's total OPEB liability.

Benefits Provided: In accordance with contracts between the District and the respective employee groups, eligible employees are entitled to receive certain medical, dental, and vision benefits through the REHP. All employees must be eligible participants in the District-provided healthcare plans prior to retirement, in order to qualify for the postretirement benefits provided through the REHP.

Eligibility requirements and benefits vary depending on employee group, hire date, and years of service to the District:

Classified Employees: Classified employees and their dependents may receive benefits through REHP for up to 5, 7, or 10 years after retirement, depending on certain years of service and age limitations as described in the negotiated agreement between the California School Employees Association and the District. Classified employees must be eligible to retire under CalPERS to receive benefits through REHP at retirement. All benefits through REHP cease when the classified retiree reaches age 65 or becomes eligible for other available healthcare benefits, whichever comes first.

Certificated Employees: Certificated employees and their dependents who retire from the District having reached age 50 with at least 10 years of consecutive service to the District, and 10 years of cumulative STRS credit are eligible to receive benefits through REHP for up to 5 years, or until the certificated retiree reaches age 65, whichever comes first. As of June 30, 2021 there are currently no active or retiree employees eligible for benefits through the REHP.

Employees Covered by Benefit Terms: The following is a table of plan participants included in the actuarial valuation.

	<u>Number of Participants</u>
Inactive Plan members, covered spouses, or beneficiaries currently receiving benefits	10
Active employees	119
	129

Contributions: California Government Code specifies that the District's contribution requirements for covered employees are established and may be amended by the Board of Trustees. The District's premium rates being charged to these retirees are lower than the expected cost for a retiree population under age 65. Thus, an implicit subsidy exists as a result of this difference between the actual cost and the true retiree cost. Contributions to the REHP from the District were \$225,234 for the year ended June 30, 2021. Employees are not required to contribute to the REHP.

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2021, and was determined by an actuarial valuation as of June 30, 2020.

Actuarial Assumptions: The total OPEB liability in the June 30, 2021 actuarial report was determined using the following actuarial assumptions and other inputs, and apply to all periods included in the measurement, unless otherwise specified:

<u>Actuarial Method</u>	Entry Age Actuarial Cost Method.
<u>Discount Rate</u>	2.16%, per the Bond Buyer 20 Bond Index.
<u>Inflation Rates</u>	2.75%
<u>Salary Increases</u>	2.75% per year
<u>Retirement/Termination Rates</u>	Retirement rates match rates developed in the most recent experience studies for California PERS (2017)
<u>Mortality Rates</u>	Mortality rates for classified employees were taken from the 2017 CalPERS Active Mortality Rates for Miscellaneous Employees. Certificated mortality rates were not considered significant as there were no active or inactive participants.
<u>Medical Costs</u>	Medical costs for retiree coverage were estimated based on the true per person costs of coverage during the year ended June 30, 2021. Certificated medical costs were not considered significant as there were no active or inactive participants.
<u>Retirement and Turnover Rates</u>	Retirement rates are taken from the most recent experience studies for CalPERS (2017).
<u>Healthcare Trend Rates</u>	Healthcare costs are assumed to increase by 4.00%.
<u>Health Plan Coverage Elections</u>	100% of eligible employees were assumed to participate in the REHP.
<u>Retirees with Spouses</u>	To the extent the information was not provided, 80% of future retiree were assumed to be married. Female spouses were assumed to be three years younger than male spouses.

Discount Rate: Given the District's decision not to fund the program, all future benefit payments were discounted using a high quality municipal bond rate of 2.16%. The municipal bond rate was based on the week closest but not later than the measurement date of the Bond Buyer 20 Bond Index as published by the Federal Reserve. The Bond Buyer 20 Bond Index consists of general obligation bonds which are scheduled mature in 20 years, with an average rating roughly equivalent to Moody's Investors Service's Aa2 rating or Standard & Poor's Corp.'s AA.

NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, up to the 2.4 percent maximum.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a full-time basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any 36 consecutive months of credited service.

CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for 36 consecutive months of credited service.

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

In June 2019, California Senate Bill 90 (SB 90) was signed into law and appropriated approximately \$2.2 billion in fiscal year 2018–19 from the state's General Fund as contributions to CalSTRS on behalf of employers. The bill required portions of the contribution to supplant the amounts remitted by employers such that the amounts remitted will be 1.03 and 0.70 percentage points less than the statutorily required amounts due for fiscal years 2019–20 and 2020–21, respectively. The remaining portion of the contribution, approximately \$1.6 billion, was allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program.

California Assembly Bill 84, Chapter 16, Statutes of 2020, (AB 84) was signed into law in June 2020 and revised certain provisions of Teachers' Retirement Law enacted by SB 90. Specifically, AB 84 repurposed the aforementioned \$1.6 billion contribution originally intended to reduce employers' long-term liabilities, to further supplant employer contributions through fiscal year 2021–22. Pursuant to AB 84, employers will remit contributions to CalSTRS based on a rate that is 2.95 percent less than the statutory rate for fiscal year 2020–21 and 2.18 percent less than the rate set by the board for fiscal year 2021–22. Any remaining amounts must be allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program. The rate reduction for fiscal year 2019-20 under SB 90 was not changed by AB 84. The employer contribution rates set in statute and the board's authority to adjust those rates starting in fiscal year 2021–22 under the CalSTRS Funding Plan were not changed by the passage of SB 90 or AB 84.

In addition, the board's rate-setting authority for the state contribution rate was suspended for fiscal year 2020–21 by AB 84. Although the board exercised its authority in May 2020 to increase the state contribution rate by 0.50 percent effective July 1, 2020, the rate increase did not go into effect. Instead, the state rate remained at the 2019–20 level of 7.828 percent.

A summary of statutory contribution rates and other sources of contributions to the DB Program pursuant to the CalSTRS Funding Plan, SB 90 and AB84, are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2020-2021.

Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2020-2021. According to current law, the contribution rate for CalSTRS 2% at 62 members is adjusted if the normal cost increases or decreases by more than 1percent since the last timethe member contribution rate was set. Based on the June 30, 2019, valuation adopted by the board in May 2020, the increase in normal cost was less than 1percent. Therefore, the contribution rate for CalSTRS 2% at 62 members did not change effective July 1, 2020.

Employers – 16.15 percent of applicable member earnings. This rate reflects the original employer contribution rate of 19.10 percent resulting from the CalSTRS Funding Plan, and subsequently reduced for the 2.95 percentage points to be paid on behalf of employers pursuant to SB 90 and AB 84.

The CalSTRS Funding Plan, which was enacted in June 2014 with the passage of California Assembly Bill (AB) 1469, required that employer contributions will increase from 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The legislation gave the CalSTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CalSTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS’ RETIREMENT PLAN (Continued)

The CalSTRS employer contribution rates effective for fiscal year 2020-2021 through fiscal year 2046-47 are summarized in the table below:

<u>Effective Date</u>	<u>Base Rate</u>	<u>Supplemental Rate Per CalSTRS Funding Plan</u>	<u>Rate Adjustment Per Special Legislation</u>	<u>Total</u>
July 1, 2020	8.250%	10.850%	(2.950%)	16.150%
July 1, 2021	8.250%	10.850%	(2.180%)	16.920%
July 1, 2022 to June 30, 2046	8.250%	(1)	N/A	(1)
July 1, 2046	8.250%	Increase from AB 1469 rate ends in 2046-47		

(1) The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down by up to 1% each year, but no higher than 20.250% total and no lower than 8.250%.

The District contributed \$7,629,028 to the plan for the fiscal year ended June 30, 2021.

State – 10.328 percent of the members’ calculated based on creditable compensation from two fiscal years prior.

The state’s base contribution to the DB Program is calculated based on creditable compensation from two fiscal years prior. As a result of the CalSTRS Funding Plan, the state is required to make additional contributions to pay down the unfunded liabilities associated with the benefit structure that was in place in 1990 prior to certain enhancements in benefits and reductions in contributions. The additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specified in subdivision (b) of Education Code section 22955.1. The increased contributions end as of fiscal year 2045–46. Pursuant to AB 84, the state contribution rate remained at 5.811% for fiscal year 2020-21.

<u>Effective Date</u>	<u>Base Rate</u>	<u>Supplemental Rate Per CalSTRS Funding Plan</u>	<u>SBMA Funding⁽¹⁾</u>	<u>Total</u>
July 01, 2020	2.017%	5.811%	2.50%	10.328%
July 01, 2021	2.017%	6.311%	2.50%	10.828%
July 01, 2022 to June 30, 2046	2.017%	(2)	2.50%	(2)
July 01, 2046	2.017%	(3)	2.50%	(3)

(1) The SBMA contribution rate excludes the \$72 million that is reduced from the required contribution in accordance with Education Code section 22954.

(2) The board has limited authority to adjust the state contribution rate annually through June 2046 in order to eliminate the remaining unfunded actuarial obligation. The board cannot increase the supplemental rate by more than 0.5% in a fiscal year, and if there is no unfunded actuarial obligation, the supplemental contribution rate imposed would be reduced to 0%.

(3) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining unfunded actuarial obligation.

NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$	75,074,000
State's proportionate share of the net pension liability associated with the District		<u>41,028,000</u>
Total		<u><u>\$ 116,102,000</u></u>

The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school districts and the State. At June 30, 2020, the District's proportion was 0.077 percent, which was a decrease of 0.004 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$17,047,529 and revenue of \$5,663,052 for support provided by the State. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 132,000	\$ 2,117,000
Changes of assumptions	7,321,000	-
Net differences between projected and actual earnings on investments	1,783,000	-
Changes in proportion and differences between District contributions and proportionate share of contributions	7,691,000	2,781,000
Contributions made subsequent to measurement date	<u>7,629,028</u>	<u>-</u>
Total	<u><u>\$ 24,556,028</u></u>	<u><u>\$ 4,898,000</u></u>

\$7,629,028 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,		
2022	\$	2,271,633
2023	\$	3,448,633
2024	\$	4,475,633
2025	\$	1,636,634
2026	\$	556,134
2027	\$	(359,667)

Differences between expected and actual experience are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2020 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2019
Experience Study	July 1, 2015 through June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB, maintain 85% Purchasing power level for DB, not applicable for DBS/CBB

Discount Rate: The discount rate used to measure the total pension liability was 7.10 percent, which was unchanged from the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Mortality: CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the CalSTRS board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term* Expected Real Rate of Return</u>
Public Equity	42%	4.8%
Real Estate Assets	15	3.6
Private Equity	13	6.3
Fixed Income	12	1.3
Risk Mitigating Strategies	10	1.8

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B

General Information about the Public Employer’s Retirement Fund B

Plan Description: The school’s cost-sharing multiple-employer defined benefit pension plan Public Employer’s Retirement Fund B (PERF B) is administered by the California Public Employees’ Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at:

<https://www.calpers.ca.gov/docs/forms-publications/cafr-2019.pdf>.

Benefits Provided: The benefits for the defined benefit plans are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer’s benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when agencies first join the PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2021 were as follows:

Members - The member contribution rate was 7.0 percent of applicable member earnings for fiscal year 2020-21.

Employers - The employer contribution rate was 20.70 percent of applicable member earnings.

The District contributed \$2,799,209 to the plan for the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$27,919,000 or its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all participating school districts. At June 30, 2020 the District’s proportion was 0.091 percent, which was a decrease of 0.003 percent from its proportion measured as of June 30, 2019.

Contributions made subsequent to measurement date	<u>2,799,209</u>	-
Total	<u>\$ 5,016,209</u>	<u>\$ 661,000</u>

\$2,799,209 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>June 30,</u>	
2022	\$ 663,167
2023	\$ 394,167
2024	\$ 231,166
2025	\$ 267,500

Differences between expected and actual experience, change in proportion and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of the June 30, 2020 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5- year period.

NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2019
Experience Study	June 30, 1997 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.15%
Consumer Price Inflation	2.50%
Wage Growth	Varies by entry age and service
Post-retirement Benefit Increases	Contract COLA up to 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.50% thereafter

The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS’ website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

Asset Class	Long-Term* Assumed Asset Allocation	Expected Real Rate of Return Years 1-10 ⁽¹⁾	Expected Real Rate of Return Years 11+ ⁽²⁾
Global Equity	50%	4.80%	5.98%
Fixed Income	28	1.00	2.62
Inflation Assets	-	0.77	1.81
Private Equity	8	6.30	7.23
Real Estate Assets	13	3.75	4.93
Liquidity	1	-	(0.92)

* 10-year geometric average

(1) An expected inflation rate of 2.00% used for this period.

(2) An expected inflation rate of 2.92% used for this period.

Discount Rate: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS’ website.

NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B (Continued)

The long-term expected rate of return on pension plan investments was determined using a building- block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical and forecasted information for all the funds’ asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long- term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses .

Sensitivity of the District’s Proportionate Share of Net Pension Liability to Changes in the Discount Rate:
 The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% Increase (8.15%)
District’s proportionate share of the net pension liability	<u>\$ 40,138,000</u>	<u>\$ 27,919,000</u>	<u>\$ 17,777,000</u>

Pension Plan Fiduciary Net Position: Detailed information about the pension plan’s fiduciary net position is available in the separately issued CalPERS financial report.

NOTE 10 - JOINT POWERS AUTHORITIES

The District is a member, with other school districts, in six joint power agencies, South Bay Area Schools Insurance Authority (SBASIA), Santa Clara County Schools Insurance Group (SCCSIG), Santa Clara Valley Transportation Agency (SCVTA), and Schools Excess Liability Fund (SELF). A brief description of each agency follows:

South Bay Area Schools Insurance Authority (SBASIA): SBASIA arranges for and provides property and liability insurance for its members. The membership includes school districts in Santa Clara County and the County Office of Education. SBASIA is governed by an Executive Board consisting of representatives from member districts. The Executive Board controls the operations of SBASIA, including selections of management and approval of operating budgets. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from coverage in the prior year.

The relationship between the District and the Joint Powers Agencies is such that the Joint Powers Agencies are not component units of the District for financial reporting purposes.

NOTE 11 - COMMITMENTS AND CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could result in expenditure disallowances under terms of the grants, it is management's opinion that any required reimbursements or future revenue offsets subsequently determined will not have a material effect on the District's financial statements or results of operations.

At June 30, 2021, the District had commitments for construction projects totaling approximately \$55.5 million.

NOTE 12 – SUBSEQUENT EVENT

On August 17, 2021, the District issued Tax Revenue Anticipation Notes (TRANs) in the total amount of \$7,460,000. The TRANs are issued to provide short-term financing for operations of the District until receipt of tax revenues assessed on properties located within the District's boundaries. The TRANs bear interest at 2.00% and are due June 30, 2022.

MOUNTAIN VIEW-LOS ALTOS UNION HIGH SCHOOL DISTRICT
 NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
 For the Year Ended June 30, 2021

NOTE 1 - PURPOSE OF SCHEDULES

Budgetary Comparison Schedule: The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Trustees to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

Schedule of Changes in the District's Total Other Postemployment Benefits (OPEB) Liability: The Schedule of Changes in the District's Total OPEB Liability is presented to illustrate the elements of the District's total OPEB liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available. The District has not accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's total OPEB liability.

Schedule of the District's Proportionate Share of the Net Pension Liability: The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

Schedule of the District's Contributions: The Schedule of the District's Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10- year trend is compiled, governments should present information for those years for which information is available.

Changes of Benefit Terms: There are no changes in benefit terms reported in the Required Supplementary Information.

Changes of Assumptions: The discount rates used for the total OPEB liability were 3.50, 3.50, 2.20, and 2.16 percent at the June 30, 2018, 2019, 2020, 2021 measurement dates, respectively.

NOTES TO SUPPLEMENTARY INFORMATION
June 30, 2021

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Instructional Time: The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

Schedule of Expenditure of Federal Awards: The Schedule of Expenditure of Federal Awards includes the federal award activity of Mountain View-Los Altos Union High School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed on the Uniform Guidance.

Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements: This schedule provides the information necessary to reconcile the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis – Unaudited: This schedule provides trend information on the District's financial condition over the past three years and its anticipated condition for the 2021-2022 fiscal year, as required by the State Controller's Office.

Schedule of Charter Schools: This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

NOTE 2 - EARLY RETIREMENT INCENTIVE PROGRAM

Education Code Section 14502 requires certain disclosures in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Sections 22714 and 44929. For the fiscal year ended June 30, 2021, the District did not adopt this program.

Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations, as listed above.

Auditor's Responsibility

Our responsibility is to express an opinion on Mountain View-Los Altos Union High School District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting (Audit Guide)*. Those standards and the Audit Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on Mountain View-Los Altos Union High School District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about Mountain View-Los Altos Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide a legal determination of Mountain View-Los Altos Union High School District's compliance.

Opinion with State Laws and Regulations

In our opinion, Mountain View-Los Altos Union High School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2021.

Purpose of this Report

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the *2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Trustees
Mountain View-Los Altos Union High School District
Mountain View, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mountain View-Los Altos Union High School District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Mountain View-Los Altos Union High School District's basic financial statements, and have issued our report thereon dated January 28, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Mountain View-Los Altos Union High School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Mountain View-Los Altos Union High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Mountain View-Los Altos Union High School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mountain View-Los Altos Union High School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

We have audited Mountain View-Los Altos Union High School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Mountain View-Los Altos Union High School District's major federal programs for the year ended June 30, 2021. Mountain View-Los Altos Union High School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Mountain View-Los Altos Union High School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Mountain View-Los Altos Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Mountain View-Los Altos Union High School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Mountain View-Los Altos Union High School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of Mountain View-Los Altos Union High School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Mountain View-Los Altos Union High School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Mountain View-Los Altos Union High School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
